HARSHVARDHAN LOKHNADE

Mechanical Engineering Student — Pune, Maharashtra, India
harshvardhanlokhande36@gmail.com — 9423113536 — linkedin.com/in/harshvardhan-lokhande — github.com/HarshvardhanL02

PROFESSIONAL SUMMARY

Mechanical Engineering student at MIT Academy of Engineering with hands-on experience in web development, product management, internal tool development, student management systems, and data-driven operations. Experienced in developing web products and automation tools, working with student and mentor data, improving digital workflows, and supporting product requirements from development to implementation.

EDUCATION

B.E. Mechanical Engineering **Expected May 2029**
MIT Academy of Engineering (MIT AOE), Pune

Relevant Coursework: Engineering Drawing, Manufacturing Processes, Workshop Practice

EXPERIENCE

Product & Management Intern **Apr 2026 – Present**
AADITYA COUNSELLING PRIVATE LIMITED *Pune, Maharashtra*

- Develop and improve web-based products and internal tools, working across frontend development, feature implementation, UI improvements, data handling, testing, and deployment.
- Developed a dedicated list-generation tool to streamline the creation, organization, and management of student and mentor lists, reducing manual effort in recurring list-generation workflows.
- Worked on the CounselDesk student management platform, supporting student data management, counselling workflows, mentor-student coordination, tracking, and day-to-day program operations.
- Contributed to the development and maintenance of the organization's main website, implementing web pages, content updates, UI changes, feature improvements, and product requirements.
- Managed and organized student and mentor data, including mentor lists, student assignments, records, follow-ups, and program-related information using structured datasets and spreadsheets.
- Supported product management activities including requirement understanding, feature planning, workflow design, testing, documentation, research, and coordination from requirement to implementation.

TECHNICAL SKILLS

Programming & Web Development: HTML, CSS, JavaScript, Python (Basics), Firebase
Product & Data: Product Management, Data Analysis, Microsoft Excel, JSON, CSV, Project Management
Mechanical Engineering: Engineering Drawing, Manufacturing Processes, Workshop Practice, Lathe Machine Operations
CAD & Design: AutoCAD, Fusion 360, Autodesk ReCap
Professional: Technical Documentation, Research, Content Development, Mentorship Coordination, Student Counselling

PROJECTS

TwinSparkTech Platform *Full-Stack Web Development*

- Designed, developed, and deployed a student-focused web platform using HTML, CSS, JavaScript, and Firebase, featuring data-driven student tools, dashboards, and interactive web applications.

Electric Tricycle Project *Creative Technology Project*

- Collaborated on assembly and testing of an electric vehicle prototype, supporting mechanical-electrical component integration, troubleshooting, documentation, and project coordination.

Mini Air Quality Indicator *Embedded Systems and IoT*

- Built an environmental monitoring system using MQ gas sensors, Arduino, and an OLED display, processing sensor readings into structured air-quality indicators.

PDF Data Extraction Tool *Automation and Data Processing*

- Developed Python and JavaScript automation to extract irregular PDF tables and transform unstructured information into structured JSON and CSV datasets.

ADDITIONAL INFORMATION

Languages: English (Professional), Hindi (Native), Marathi (Native)
